

HellermannTyton

To Whom It May Concern,

HellermannTyton has specifically designed UV stabilized cable ties for the solar industry. These ties are made out of a high quality UV stabilized Nylon PA6.6UV material. This provides additional protection against UV radiation for long term outdoor use.

We are pleased to offer a 10 year warranty and offer up to a 25 year life expectancy on the following products, when used in static outdoor/solar applications:

T30x0UVyy

T50x0UVyy

T120x0UVyy

where "x" is the length code, and "yy" is the package size

Please contact me directly if you have any questions or concerns,

Sincerely,

Terry Libertus
